**MEMORANDUM OF OBJECTS AND REASONS**

The Mortgage Insurance Act ("the Act") was last amended in 2008. That amendment was intended to facilitate the writing of more mortgage insurance policies, by increasing the amount of insurance that could be issued from 1.2 billion dollars to 2 billion dollars.

This Bill seeks to further amend the Act to make mortgages more accessible to the average Jamaican.

Currently, the large deposit required and the additional closing costs incidental to the purchase of a home, are a major hurdle faced by Jamaicans in their effort to acquire a home. The approximate amount required for deposits on a home is fifteen per cent of the purchase price, which many home buyers find exceedingly difficult to accumulate. The proposed increase in the percentage of the purchase price, which can be insured under the Act, up to a maximum of ninety-seven per cent, would allow mortgage companies to use a higher loan to value ratio in their underwriting.

The Jamaica Mortgage Bank which administers the Mortgage Insurance Fund on behalf of the Government of Jamaica, envisages that as a result of this increase in the percentage, home buyers will be able to access a larger mortgage loan and would therefore reduce the large amount that would be required as a deposit. This will impact particularly on new entrants to the workforce, new professionals, public sector workers and others who have stable jobs and have qualified for mortgages and can afford the monthly mortgage repayments, but who do not have significant savings to cover a large deposit.

This increase in the percentage will also create an opportunity for these persons, who are unable to afford the standard deposit, to acquire homes earlier, and give them a longer period to pay off the mortgage over their working lives.

This Bill, therefore, seeks to amend the Mortgage Insurance Act to allow for—

- (a) an increase from 90 per cent to 97 per cent, the percentage of the appraised value of the property on which mortgage indemnity insurance is being granted; and
- (b) the varying of the percentage of the appraised value to be done by way of ministerial order, subject to affirmative resolution.
